REAL PROJECTS

INNOVATIVE SUPPLY AND SERVICES

COMPANY IDENTITY

COMPANY SNAPSHOT

Real Projects Innovative Trading is a UAE-based trading and supply company serving the oil & gas, energy and broader industrial sectors.

We operate a single-source procurement model — spare parts, MRO items, mechanical components, energy solutions and shutdown/turnaround materials from one accountable supplier.

We combine local stockholding in the UAE — with a dedicated office and warehouse presence in both Sharjah and Abu Dhabi — with a global sourcing network of certified manufacturers and distributors.

We are structured to meet the vendor, quality and documentation requirements of national oil companies, including ADNOC and its group of companies.

REAL PROJECTS
INNOVATIVE SUPPLY AND SERVICES

VISION

To become the region's most trusted and innovative supplier for the operational needs of oil, gas and energy industry clients.

MISSION

To deliver certified, traceable and readily available industrial products and services that keep client operations running safely, compliantly and on schedule.

Values That Shape How We Operate

Safety
HSE-first sourcing and handling

Reliability
On-time, in-full delivery

Compliance
Certified, standards-aligned products

Speed
Rapid quotes and emergency logistics

Partnership
Long-term client relationships

COMPANY IDENTITY

Why Clients Choose Real Projects

Clients across the oil, gas and energy sectors choose Real Projects for one accountable supplier delivering certified, traceable products on time and in full, backed by local stock in Sharjah and Abu Dhabi and a vetted international manufacturer network.

Reliable Supplier

One accountable supplier across nine product and service pillars, meaning fewer vendors to manage

Fast & Emergency Logistics

Rapid quotation turnaround and priority handling for shutdown and breakdown situations

Certified & Traceable

Products backed by ISO, API and mill/test certification with full documentation

Local Stock + Global Network

UAE warehousing in Sharjah and Abu Dhabi combined with a vetted international manufacturer network

Dedicated Account Management

Named contacts who understand each client's site, specifications and approval workflow

Framework-Ready Commercials

Structured for call-off orders, term contracts and long-term partnerships

CORE BUSINESS · PILLAR 1 OF 9

Electrical Spare Parts

A full range of electrical spare parts for power distribution, control systems and plant electrical infrastructure, sourced from certified and traceable manufacturers.

01

Cables, wiring accessories and cable management

Circuit breakers, switchgear and protection devices

Electric motors and motor spare parts

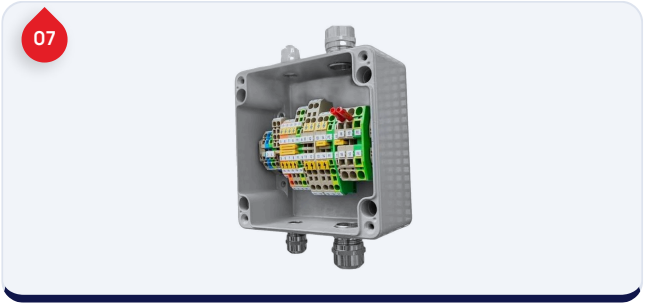

Transformers and transformer components

Control panel parts, relays and contactors

Explosion-proof (Ex-rated) lighting and fixtures

Connectors, terminals and junction boxes

REAL PROJECTS
INNOVATIVE SUPPLY AND SERVICES

MRO Items Supply

Maintenance, Repair & Operations (MRO) supply covering the recurring consumables and components that keep plants, rigs and facilities running day to day.

02

01

Bearings, seals and rotating-equipment spares

02

Industrial lubricants and greases

03

Fasteners, fittings and hardware

04

Hand tools and power tools

05

Safety consumables and general PPE

06

Filtration products — oil, air and hydraulic

07

Welding consumables and equipment

08

General plant maintenance supplies

REAL PROJECTS
INNOVATIVE SUPPLY AND SERVICES

Mechanical Pipes, Valves & Gaskets

Mechanical piping components engineered and certified to international standards, supporting process piping, pipelines and static equipment.

03

01

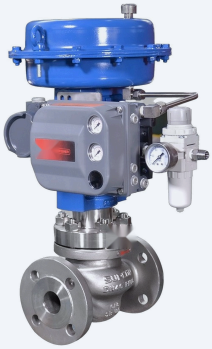

Carbon steel, stainless steel and alloy pipes

02

Ball, gate, globe and check valves

03

Control valves and valve actuators

04

Gaskets and seals — spiral-wound, RTJ, soft-cut

05

Flanges, fittings and pipe couplings

06

Pipe supports, hangers and accessories

REAL PROJECTS
INNOVATIVE SUPPLY AND SERVICES

Energy & Smart Metering / BMS Solutions

Utility and energy-management solutions bridging traditional supply with digital infrastructure — smart metering, monitoring and building management systems.

04

01

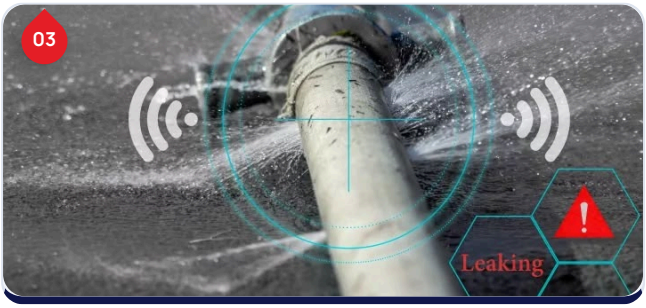

Electricity smart meters

02

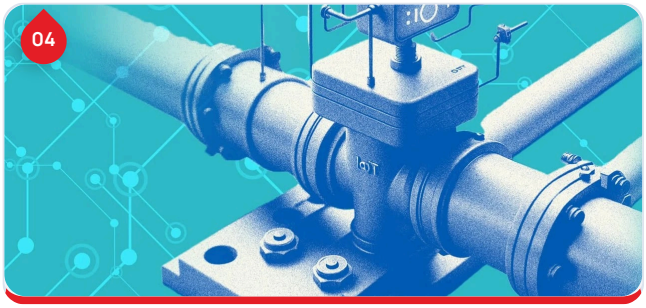

Water and other utility smart meters

03

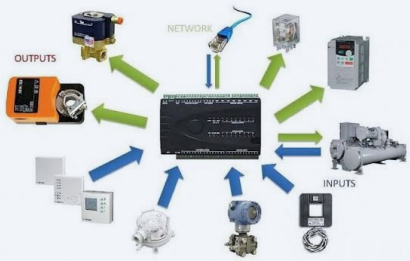

Water leakage detection system

04

Water flow meters — industrial

05

Building Management System (BMS) components

06

SCADA-compatible energy monitoring devices

07

Load management and demand-response devices

CORE BUSINESS · PILLAR 5 OF 9

General Oil & Gas Operational Items

A broad category ensuring that any additional item required for oil & gas operations can be sourced through a single point of contact.

05

01

PPE and industrial safety equipment

02

Industrial hoses, couplings and camlocks

03

Pump and compressor spare parts

04

Rigging, lifting and material-handling equipment

05

Specialty chemicals and process consumables

06

Instrumentation and calibration equipment

Shutdown & TAR (Turnaround) Supplies

Time-critical materials and equipment supporting planned and emergency shutdowns, turnarounds and outages, where delay directly impacts production.

06

01

Scaffolding and access-equipment components

02

Temporary piping, hoses and connections

03

Line blinds, spades and isolation equipment

04

Gasket kits and bolt sets for turnaround scope

05

Rental of specialized tools and equipment

06

Priority and emergency logistics support

Fire Fighting & Fire Alarm Systems

Life-safety systems and equipment for fire detection, alarm, suppression and firefighting, aligned with international and UAE Civil Defense standards.

07

01

Fire detection and alarm control panels

02

Smoke, heat and gas detectors

03

Fire pumps and sprinkler system components

04

Fire extinguishers and hose reels

05

Foam and gas suppression systems

06

Firefighting PPE and rescue equipment

Refinery Catalysts

Catalysts, adsorbents and reactor support media sourced from established international manufacturers, supporting hydroprocessing, conversion, sulphur recovery and gas treating units in refineries and gas plants.

08

01

Hydroprocessing Catalysts — hydrotreating, hydrocracking and guard-bed grades

02

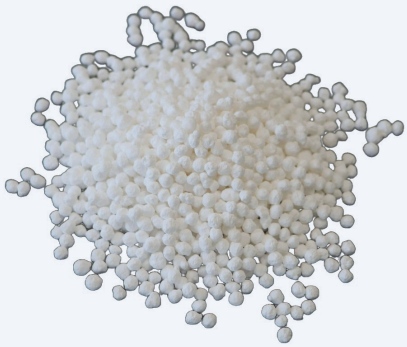

FCC Catalysts & Additives — cracking catalysts with octane, SOx and CO additives

03

Reforming & Isomerization Catalysts — naphtha reforming and light-naphtha isomerization grades

04

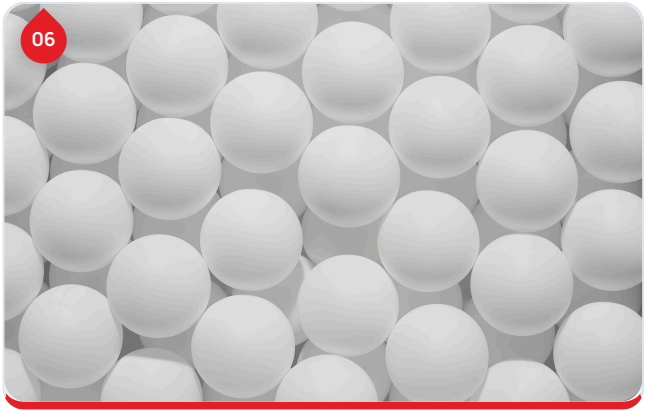

Sulphur Recovery Catalysts — claus alumina, titania and tail gas treating catalysts

05

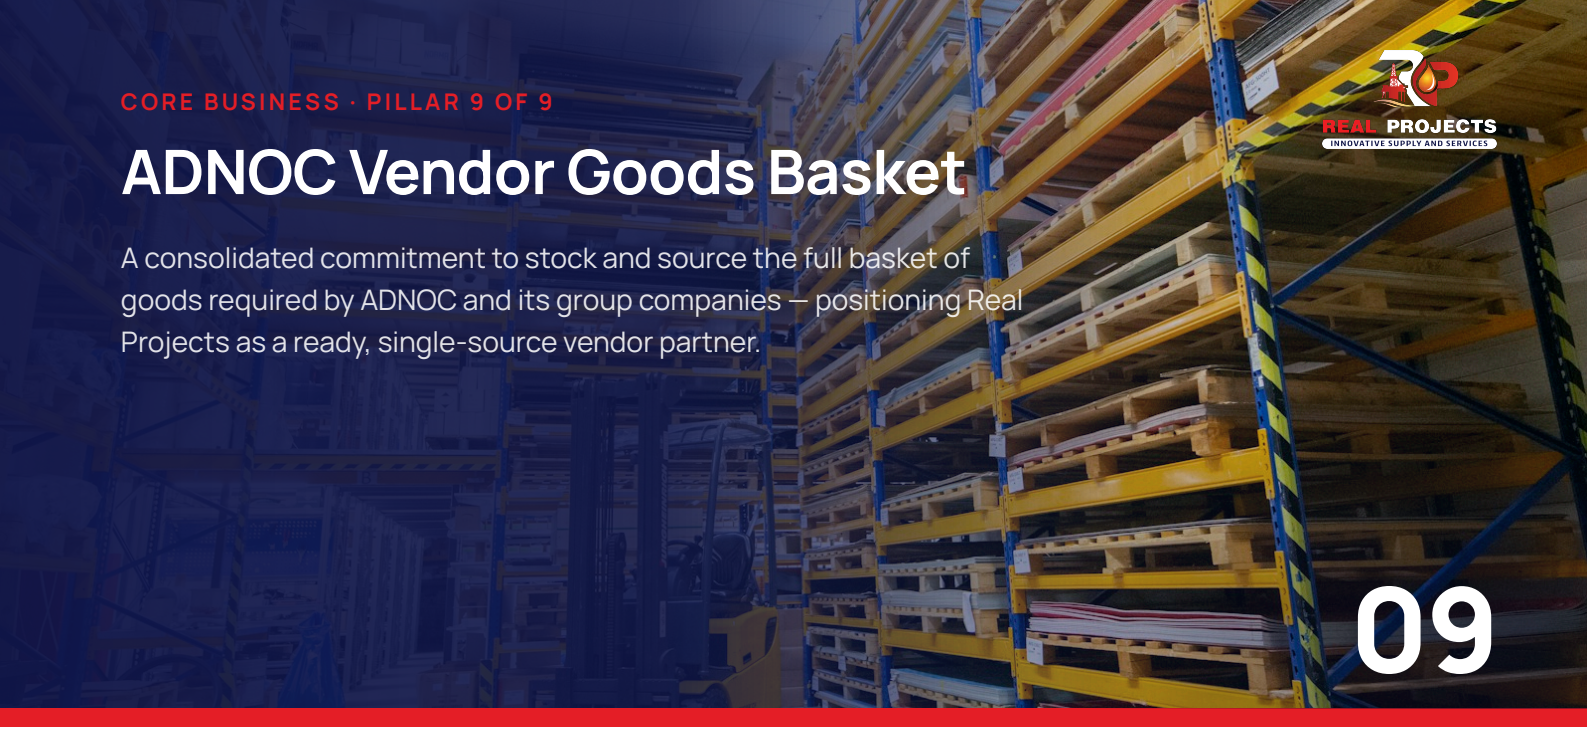

Molecular Sieves & Adsorbents — molecular sieves, activated alumina and guard-bed media

06

Inert Ceramic Balls — inert support and hold-down media for reactor beds

CORE BUSINESS · PILLAR 9 OF 9

ADNOC Vendor Goods Basket

A consolidated commitment to stock and source the full basket of goods required by ADNOC and its group companies — positioning Real Projects as a ready, single-source vendor partner.

09

- Goods spanning all core pillars, mapped to ADNOC's approved-vendor product structure
- Alignment with ADNOC HSE, quality and technical specification requirements
- Support for In-Country Value (ICV) certification and local-content reporting
- Material traceability and certification — ISO 9001, API monogram products, mill test certificates
- Framework-agreement and call-off order capability for long-term contracts
- Dedicated account handling for national oil company clients

COMPANY IDENTITY

Industries & Customers Served

- Upstream
- Midstream
- Downstream
- Power & Utilities
- EPC & Contracting
- Marine & Offshore

Upstream
Exploration & production operators

Midstream
Pipeline & transportation operators

Downstream
Refining & petrochemical plants

Power & Utilities
Generation, transmission & distribution

EPC & Contracting
Engineering, procurement & construction firms

Marine & Offshore
Offshore platforms & marine support
